First Use of Zero
in Eurasia India

876

Duncan: Cal

The first use of the 0 (egg symbol)
for zero in India appears in
876

Before A.D. 876

A mathematician in India
invented zero i.e. nothing
It was represented by a little dot
or a hollow dot

The Arabs borrowed this
notion and passed it on to Europe.
They called the symbol *sifr*.
Thus we get cipher.

874

Lewis the German died. His
sons share Germany.

876

Basil II took up seven war in
South Italy.
